Lear Siegler Procuring  
Sargent Fletcher External Fuel Tank Pylons

Sargent Fletcher Inc., a wholly owned subsidiary of Cobham plc, announces the award of a production contract from Lear Siegler Logistics International to manufacture and deliver Pylons for 370-Gallon External Fuel Tanks.

“The External Fuel Tank Pylon legacy is a compliment to Sargent Fletcher continued successes in Pylon development and production for aircraft covering the globe,” said Stephen Taylor, Business Development Manager for Tanks and Pylons. “This updated Sargent Fletcher pylon has demonstrated extremely reliable and dependable performance worldwide. We look forward to continuing our production successes with this legacy product and, supporting end users.

The Sargent Fletcher designed, developed, and tested External Fuel Tank Pylons are manufactured at Sargent Fletcher’s facility in El Monte, California, USA.
